## One LOOK PATTERN MAKING

Ajay Singh Bisht

One Look Pattern Making

ISBN: 978-93-87978-42-3

Pages: 140

## About the Book

One Look Pattern Making is a new approach to pattern making. The first book in this series explains only a few of the basic women's patterns. The subsequent books will explain more advanced patterns of both Indian and western wear. They will be dealing with advanced womenswear and menswear, structured and non-structured garments, and basic and innovative designs.

# FASHION

## About the Book

This book is an attempt to explain all the facets of fashion design process. The detailed explanation of planning, research, artwork and presentation will familiarise design students with all the possible design tools at their disposal. The premise of this book is that only when designers understand all the possible tools will they be able to use the appropriate methodology in order to attain the best design output. Even experienced designers need to rework their process from time to time in order to reinvent themselves.
